Subject: Greeley Neighborhood Mining Impact Position Statement Before Council of Commissioners

ATTN:
Doug Benevento EPA, Shaun McGrath MDEQ

The Greeley Neighborhood of Butte, MT is unique in that it is impacted by past, present, and future mining activities.

We feel it is important that you understand the position of the residence of the Greeley Neighborhood.

Please see our position as stated in our communication to the B-SB Government;

BUTTE-SILVER BOW COUNCIL OF COMMISSIONERS, REGULAR MEETING AGENDA,

WEDNESDAY, FEBRUARY 6, 2019, 7:30 COUNCIL CHAMBERS, B-SB COURT HOUSE
SECTION 2 CONSENT AGENDA, B. COMMUNICATIONS

5. COMMUNICATION NO. 19-36

Greeley Neighborhood Community Development Corporation Inc. requesting the Council of Commissioners review the responses to the responses of Communication No. 18-481 and Communication No. 18-550., Note and place on file.

It seems that the B-SB Government is now willing to start testing PM-10 and TSP.

But if change is going to happen the Air Quality Standard must be changed which will most probably require an amendment to the State of Montana Clean Air Act, and this amendment should be requested by the B-SB Government.

If you support this position and request please let your opinion be heard during Comments at the beginning of this Council meeting.

R. Edward Banderob, Pres. GNCDClnc.
